

# ONE WAY CLUTCH SOLUTIONS

DESIGNED TO ADD VALUE WITH REDUCED MACHINING

Customizable

Smart Design

Sustainable

- ✓ Capability to produce customizable, complex & compact design features
- ✓ Achieve higher safety margin mechanical properties with best-in-class manufacturing technology
- ✓ Mid to high range tonnage(500-1600T) capabilities to produce wide range of products
- ✓ Cost effective heat treatment utilizing sinter hardened material
- ✓ Net shape processing & integrated features eliminate machining
- ✓ Sustainable manufacturing targeting 100% material utilization

**INDUSTRY**

BEV/  
Automotive Transmission

**TECHNOLOGY**

Powder Metallurgy

**MATERIAL**

Steel
